

TALLYTA GANA

JUNIOR SOFTWARE DEVELOPER

0655949168 | ganatallyta@gmail.com | www.Linkedin.com/tallytagana

CAREER SUMMARY

I am Tallyta Gana, a web developer with a passion for crafting innovative and intuitive applications. I am proficient in CSS, HTML, JavaScript, React, Node.js, and Python, I excel at building dynamic, efficient, and user-friendly web solutions.

EDUCATION AND CERTIFICATION

Diploma in Information Technology | Nelson Mandela University

2021-2024

TECHNICAL SKILLS

C# | JavaScript, HTML, CSS | Node.js | React.js | Python | AI and Machine learning

WORK EXPERIENCE

Software developer associate | Capaciti

2025- Present

- Developed and maintained scalable web applications using HTML, CSS, JavaScript, React, Node.js, and Python and machine learning, improving performance and user experience.
- Collaborated with cross-functional teams to identify and resolve complex technical issues, reducing bug resolution time by 30%.
- Optimized application performance through efficient code refactoring, resulting in faster load times and enhanced user satisfaction.

Tutor | Self-employed

2022- 2024

- Mentored aspiring developers in mastering web development fundamentals, including HTML, CSS, JavaScript, React, Node.js, and Python.
- Designed structured learning plans and hands-on coding exercises to simplify complex concepts and enhance practical skills.
- Guided students in building real-world projects, fostering their confidence and preparing them for professional roles in tech.

PROJECTS

- **Fix It Web App** – Developed a platform connecting unemployed individuals with service providers across various sectors, integrating user authentication and secure messaging using React, Node.js, and MongoDB.
- **Event Planner App** – Built an event planning application using Python (customtkinter) and SQLite, featuring user authentication, event scheduling, and data management.
- **Chat Application** – Created a real-time chat app with voice note functionality using the MERN stack, focusing on secure communication and media sharing.
